Task 3

- This task involves making a real world website to get the hands on experience of how websites are really made and how frontend developers and freelancers work.

- The Preview image and PSD file has been uploaded on GitHub (Task3.psd)

- You can use any online resource you want.

- Use of Frameworks like Bootstrap is allowed, but discouraged

- Since it is a challenging task, deadline is of 2.5 weeks

- Explore internet at any point where you get struck, it will boost your learning… **Real growth happens only when you explore things**

- We can arrange for doubt sessions anytime you want

- All the best

- Upload the task on or before **25th feb**
